Magtek Reader USB – **Your Price: \$375** + \$20 S/H

Optimized to reduce transaction time and manual entry errors, the Mini MICR is a single-feed MICR reader with a reliable and durable design. Where fast and accurate MICR reading is required, the Mini MICR offers connectivity to Logos II Church Management Software. With a simple drop-and-push check feed movement, the Mini MICR can significantly speed the look-up and accuracy of contribution entry.

Dymo LabelWriter 450

Purchase from your office supply store. A customer favorite, the Dymo 450 (or 450 Turbo) prints high-resolution labels for Child check-in, envelopes, packages, files, folders, media, name badges and more – directly from Logos Software and other popular software.
